DETAILED ACTION

Application Status

1. In response to the previous Office action on the merits, an ex Parte Quayle action (mailed September 16, 2004), Applicant filed a response and amendment received on November 15, 2004. Said amendment contained a replacement sequence listing in computer readable form and an amendment to the specification as well as new formal drawings. Claims 20-24, 26-36 and 38 are pending in the instant Office action and will be examined herein.

Priority

2. As previously noted, the instant application is granted the benefit of priority for the European application 99112471 filed on June 30, 1999 and International Application No. PCT/EP00/05834 filed on June 23, 2000.

Compliance with the Sequence Rules

3. Applicant filed a sequence listing in computer readable form and paper copy on November 15, 2004; said filing has been entered. Said sequence listing has the appropriate sequence for SEQ ID NO:2 (Arg at position 126) as noted previously. Thus, the sequence listing as pending contains no new matter.

4. In Applicant's amendment to the specification, specifically to the brief description of the drawings, SEQ ID NOs for Figures 1-3 were omitted; said SEQ ID NOs had been in an amendment by Applicant filed on March 15, 2004. The Examiner added these SEQ ID NOs to the Brief Descriptions of Figures 1-3 in an informal Examiner's amendment. Additionally, the

Art Unit: 1652

Examiner inserted SEQ ID NOs for Figure 4, which had been previously overlooked in prosecution. By these amendments made by the Examiner informally, the instant application fully complies with the sequence rules.

Drawings

5. The drawings filed on November 15, 2004 by Applicant are considered formal and ready for publication.

Conclusion

6. Claims 20-24, 26-36 and 38 are allowed.
